

## Public Feedback: Chapter 2 – Purpose, Scope and Plan Linkages

Sub-Topic	Plan Reference	Feedback
Purpose	Text under “purpose” (p. 13)	Perhaps a statement indicating that purpose of Section 2 is to focus on internal plan linkages versus the links between City plans and those of other jurisdictions (CRD, senior government agencies, etc). Also note that each section identifies relations to outside plans on a topic by topic basis, as necessary.
Plan Linkages	Figure 2 p. 15	Include text clarifying that figure 2 only speaks to linkages to City plans and documents.
	Figure 2 p. 15	We acknowledge Figure 2: Plan Linkages and note that no changes to the nature of any of these documents, their scale/scope, method of adaption, or timeframe are mean to be changed through the OCP Process. The Local Area Plans, for instance, will remain adopted by resolution and will be created in alignment with the OCP in the future but will not themselves become part of the OCP bylaw.
